

circles (2018 - 2023)

Edition 02

Series: Circles 2018 – 2023

Edition: 02

Iterations: 12

Physicals: 12

Title: Chaos & Order 1

Year: 2021

Signature: hand signed and numbered

Dimension Print: 37.7 x 49.6 inches (96 x 126 cm)

Information on printing:

Fine art print on Hahnemühle paper with screen print layer laminated on Alu-Dibond behind museum glass with black wooden frame

Edition 02 / Iteration 1/12 Physical Print

The series „**Circles**” was created between 2018 and 2023 and comprises several editions. The series aims to appeal to artists, galleries, and collectors interested in conceptually clear, collectible works. The editions are limited and carefully produced, making them suitable for private collections as well as corporate art projects or gallery exhibitions. “Circles” seeks to foster a dialogue between visual precision, intuitive perception, and contemporary art.

The series highlights the deliberate connection between **digital original** and **physical presence** mediated. While the digital original exists as a digital token and has its unique identity there, the print appears as a momentary, **material expression**. Both forms are connected, but not necessarily identical. Physical printing is not reproduction in the traditional sense, but rather a **material continuation** of the digital work.

The series positions itself as a bridge between experimental emerging art and market-ready presentations—ideal for professional curators, art consultants, and collectors looking to discover innovative perspectives.

About this work

Up close, the work looks like **Characters without meaning**. Lines cross, stumble, stand seemingly aimlessly next to each other. Chaos. Each trace seems incomplete, almost random - as if it had no place, no destination. The gaze seeks a foothold, but finds only movement.

With distance, however, something magical happens. The restless becomes orderly, the fragmented comes together. The lines that seemed contradictory just a moment ago form a **Circle** - quiet, clear, perfect. Order. Not as a rigid construct, but as a result **of a process** that needs time, trust and perspective.

Edition 02 tells of the hidden power of new beginnings. About the fact that form is not always immediately visible. That growth often begins confusingly, full of detours and apparent mistakes. But every line carries meaning, even if it makes no sense when viewed in isolation.

This work is a reminder that magic happens, **if we have the courage to step back**. When we allow chaos to unfold, trusting that one day it will become orderly. The circle is no coincidence - it is the promise that movement becomes meaning and unrest becomes a new wholeness.

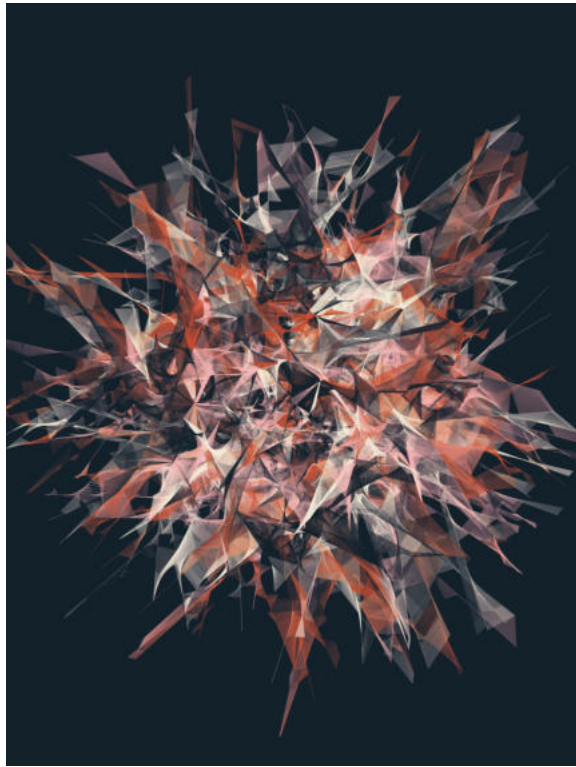

Edition 02 explores the tension between order and chance, between digital structure and tactile presence. Each edition combines algorithmic compositions with physical media, allowing the works to make an impact in both the digital and physical worlds.

Some of the works in this edition were published alongside the **Thomson Galerie in Zug**, the **Andakulova Galerie in Dubai**, the **Nicoleta Galerie in Berlin** even during the **ArtExpo in Paris** and in a permanent exhibition at the **Sonthofen Town Hall Gallery** to be presented starting in 2024.

„The interesting layering of geometric shapes, paired with the gentle interplay of transparency and light, creates an intriguing sense of movement and complexity. The organic, almost crystalline structure against the cool blue background is reminiscent of both natural and digital aesthetics, inviting the viewer to explore the intriguing details and depth.“

*This work is released as a strictly limited edition of 12 digital originals/editions. Each digital edition represents the primary collectible and is individually numbered and authenticated. It grants access to the work in its original digital form and ensures provenance within the edition. All digital editions are issued only once (1/1 unique).

A maximum of 1 physical version is produced for each digital original to provide collectors with both the digital and physical experience. The physical production may differ from the digital original. The physical print is not a reproduction in the traditional sense, but a material continuation of the digital work — the image is transferred in size, weight, and presence.

For premium collectors who want a very high-quality physical version, a museum-quality print is available as an optional extension of the digital original. The print is produced in the dimensions of 96 × 126 cm, using: fine art paper, aluminum dibond backing, museum glass, handcrafted wooden frame. This production follows archival and exhibition standards and is designed for long-term preservation and institutional display.

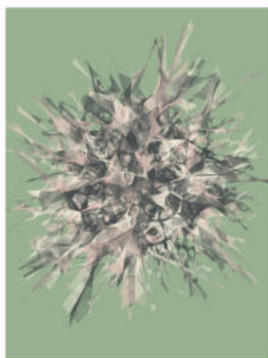

Digital editions can be purchased individually or as a collector's bundle. Both works combine digital provenance with physical form. *This publication is deliberately kept small. Once the edition is complete, no further versions will be produced.*

Digital Edition	Token	Price (€)	Description
Token Early Edition	1 - 4	120	Limited 1/1 unique digital edition, primary collectible
Token Mid Edition	5 - 8	150	Limited 1/1 unique digital edition, primary collectible
